

AMBERG GEOvis | PLATFORM FOR ALL YOUR GEOMONITORING PROJECTS

GEOvis makes your monitoring projects more efficient, informative and professional for you and your customers. Revolutionise the way you monitor with:

Data Integration and Visualisation

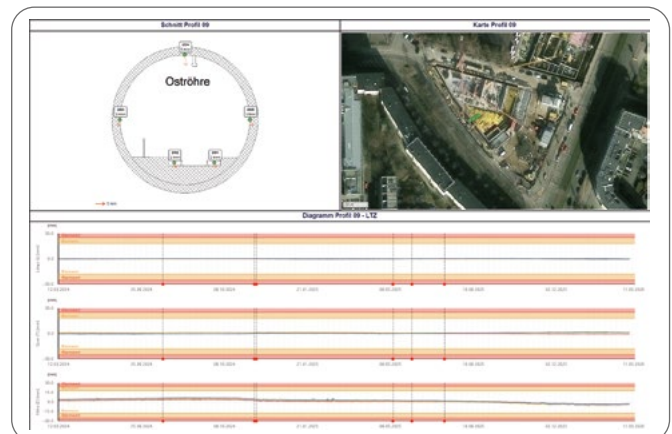

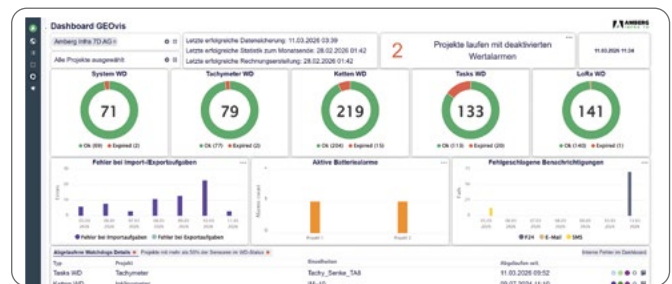

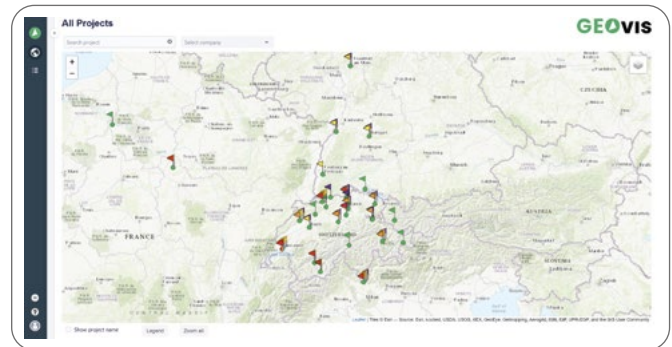

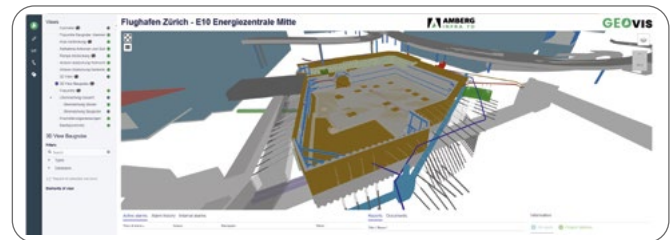

- Project size doesn't matter. Scaling up is easy.
- GEOvis supports both manual and automated jobs.
- Visualise** your data and **share** access with your clients.
- GEOvis processes **various types** of data.
- Tailor-made solution for all construction professionals.
- Automated** data exchange with sensors, IoT and 3rd-party platforms.
- 3D – IFC integration
- Fully transparent** and **flexible pricing models**.

Project Management and Insights

- Supervise and administrate projects efficiently.
- Import, process, visualise and export – **anytime, anywhere**.
- Overview maps and **dashboards** show you the project status at a glance.
- Interactive maps and graphics deliver clear and intuitive insights.
- Use **virtual sensors** to extract and visualise data for deeper understanding.
- Provide **24/7 access** with customer specific access rights and logins.
- Unlimited** users and customer logins
- Predefined **templates** and **wizards** make setting up your projects a breeze.

Data control and alarming in real time

- Create individual measurement **reports**, fitting your preferences.
- Export** measurement data, graphs and reports directly to external platforms.
- Send **automated** daily or weekly reports to your customers.
- Integrated **alarm** function enables you to react to limit exceeding in real time.

DISCOVER THE FUTURE OF MONITORING WITH GEOvis

LICENSING

Pick the plan that fits your monitoring needs

BASIC

Start Simple, but with Full Control

Manage up to 10 manual monitoring projects. With all the reporting features fully available, so you can extract all the relevant insights.

ADVANCED

Automate your monitoring projects

Do you need to send data from remote locations, automatically import and visualise, or set up virtual sensors? Then this is the right license for you!

EXPERT

Popular

Stay safe with alarms! Enjoy the peace of mind

Unlock the full capability of GEOvis with powerful alarm systems, real-time alerts (SMS & email) and advanced analytics tools. Now you can detect issues early and make faster, data-driven decisions.

ENTERPRISE

Maximum flexibility and security

Designed for organisations that need custom solutions, on site server installations, this package will be adapted to your special needs – talk to us, we will find a solution.
